github/SHAH8860

Full-Stack Developer specializing in frontend and backend development, **with 4 years** of experience in all stages of the development cycle for dynamic web projects.

Education

Galgotias University (GU)

Bachelor of Technology in Software Engineering — CGPA 8.20

August 2018 - June 2022

GreaterNoida, IN

Technical Skills

Languages: JavaScript, TypeScript, Python

Database MongoDB, SQL

Tools/Technologies: Angular, NodeJs, Express, BootStrap, Angular Material, Html, SCSS, Rxjs, RestFull API, VS Code, Jira, Github, Github Desktop, SVN, Postman, Swagger, FastAPI.

Experience

Netprophet CyberWork

May 2024– Present

Software Engineer

Noida, IN

- **Developed and maintained a Scholarship Portal using Angular 17**, delivering a responsive and user-friendly interface for scholarship application and management
- **Built an ACTC Government Event Management Portal using Angular 18**, enabling event organizers to submit funding requests and manage event-related workflows.
- **Integrated RESTful APIs to enable seamless communication** between the frontend and backend, ensuring efficient data exchange.
- **Developed data encryption and decryption mechanisms** to enhance the security of sensitive user and application.
- **Collaborated with team members using Git and SVN** following version control best practices, code reviews, and branch management workflows
- **Implemented Highcharts** to create interactive dashboards and graphical reports for data visualization and analytics.
- **Optimized application performance by implementing lazy loading**, efficient state management, and reusable UI components.
- **Worked closely with backend developers to integrate APIs**, troubleshoot issues, and deliver new features on schedule.
- **Trained and mentored an intern in Angular for 3 months**, covering core concepts, components, routing, services, and API integration.

Interra Information Technology

January 2022 –April 2024

Software Engineer

Noida, IN

- **Successfully completed a 6-month internship**, receiving hands-on training in JavaScript, Angular, NodeJS, ExpressJS and MongoDB.
- **Developed and maintained full-stack web** applications using Angular 13, Node.js, Express.js and MongoDB.
- **Designed and implemented RESTful APIs** using Express.js and integrated them with MongoDB.
- **Built responsive and user-friendly interfaces with Angular** while consuming backend APIs.
- **Collaborated with cross-functional teams using Jira** for task management and GitHub for version control.
- **Tested REST APIs using Postman** and Swagger to ensure functionality and reliability.
- **Participated in debugging, code reviews, and feature** enhancements to improve application performance.
- **Designed and developed RESTful APIs using Python, Django**, and Django REST Framework (DRF), and integrated them with Angular for seamless frontend-backend communication.
- **Designed and implemented RESTful APIs using Node.js, Express.js**, and MongoDB to support frontend applications.

Projects

ACTC

October 2025-Present

Client: Sport Authority of India (SAI)

Technologies: Angular18, DotNet, Angular Material, MySQL, SVN.

Role: Frontend Developer

Url: <https://actc.kheloindia.gov.in/>

Description: Developed a government event management portal that enables authorized government officials to request funding from the Government of India for organizing events across India and in foreign countries. Some example are fit India, cycling compedition.

Grievance System

March 2025-Present

Client: NIC

Technologies: Angular17, Fastapi, Angular Material, MySQL, Git, Python.

Role: Full-Stack Developer

Url: <https://nsp.gov.in/grievanceregistration/>

Description: Developed a student grievance portal where students can register complaints, track their complaint Status and receive updates throughout the resolution process.

ScholarShip Eligibility

September 2024 -Present

Client: NIC

Technologies: Angular17, NodeJs, Express, Angular Material, MySQL, BootStrap, Git.

Role: Full-Stack Developer

Url: <https://scholarships.gov.in/scholarshipEligibility/>

Description: Developed a scholarship eligibility portal that allows students to check their eligibility for various government scholarship schemes by providing their personal and academic details.

National ScholarShip Portal

May 2024-Present

Client: NIC

Technologies: Angular17, Fastapi, Angular Material, MySQL, BootStrap, Git.

Role: Full-Stack Developer

Url: <https://scholarships.gov.in/ApplicationForm/login>

Description: Developed a scholarship portal that enables students from Class 1 to Ph.D. to apply for government initiative scholarship schemes, submit required documents, and track their application status throughout the application process.

SUBEEZ

July 2022 – April 2024

Client: Australian Company

Technologies: Angular13, NodeJS, ExpressJS, MongoDB, Git, Jira

Role: Full-Stack Developer

Description: Developed a full-stack freelance job portal using Angular 13, Node.js, Express.js, TypeScript, and MongoDB, where users can post jobs, hire freelancers, and apply for freelance opportunities, similar to Naukri.com. Implemented secure user authentication, job posting and management, freelancer profiles, job search and filtering, RESTful API integration, and responsive UI for an enhanced user experience.
